

Water Rate

READ—

Subject No. 24 of the Mysore Canal, dated 16th February 1924, is the subject of the present order. It is a concession to the holders of land under channels of the Mysore Canal to cultivate fodder crops on the present occasion. It is anticipated that a fairly large area amounting to about 1,000 acres will be brought under fodder crops if further concessions are granted.

The Mysore Canal, dated 16th February 1924, is the subject of the present order. It is a concession to the holders of land under channels of the Mysore Canal to cultivate fodder crops on the present occasion. It is anticipated that a fairly large area amounting to about 1,000 acres will be brought under fodder crops if further concessions are granted.

Government Order No. P. W. 282-88—K. S. 1714-20, dated 2nd February 1924, passing orders regarding certain concessions to be granted to holders of land under channels of the Mysore District to encourage the growth of manurial and fodder crops.

Government Order No. P. W. 282-88—K. S. 1714-20, dated 2nd February 1924, passing orders regarding certain concessions to be granted to holders of land under channels of the Mysore District to encourage the growth of manurial and fodder crops.

ORDER NO. L. 6465-76—A. E. 168-23-1, DATED 16TH FEBRUARY 1924.

In the order read above, Government sanctioned the proposal of allowing irrigation of one acre of manurial crops for every acre of fodder cultivated on payment of Re. 1 per acre for the whole area irrigated. The Director of Agriculture reports that some further concessions are necessary to secure that the concessions already offered are fully availed of and that as large an extent as possible is cultivated with fodder crops on the present occasion. It is anticipated that a fairly large area amounting to about 1,000 acres will be brought under fodder crops if further concessions are granted.

2. Government are pleased to sanction the following further concessions which have been recommended by the Director of Agriculture in Mysore:—

- Seed sufficient for about 1,000 acres may be given to the raiyats as an advance to be recovered after the crop is harvested.
- Government will purchase the crop grown on 1,000 acres subject to a maximum of three cart-loads per acre at the rate of Rs. 4 per cart-load. The payment will be made when the crop is harvested and handed over to Government.

3. The raiyats will however have the option to sell the entire quantity of fodder grown to others at a higher rate.

Offg. K. V. ANANTARAMAN,  
Secretary to Government,  
Revenue Department.

## Water Rate.

READ--

Subject No. 24 of the Representative Assembly of October 1923, re the levy of single water rate on lands irrigated by percolation and the Dewan's reply thereto that if any land is used as wet for five years in such cases orders would issue for the conversion of such lands into wet.

2. Letter No. 175, dated the 10th December 1923, from the Superintendent of Revenue Survey, stating that single rate may be levied on such lands as are, after inspection, certified by a responsible officer like the Amildar or Sub-Division Officer to get percolation water only that the idea of converting such lands permanently into wet after five years' use is suitable and may be adopted.

3. Correspondence ending with letter No. G. 12384-2824, dated the 8th January 1924 from the Revenue Commissioner, stating that he is agreeable to the conversion into wet of the lands irrigated by percolation of water for five years.

ORDER No. 3641-51—L. R. 198-23-47, DATED 5TH FEBRUARY 1924.

Government direct that single water rate is levied on lands irrigated by percolation only and that such lands if used as wet for five years be converted into wet. The fact of a land being irrigated by percolation only must be certified to by the Amildar in every case after personal inspection. The Representative Assembly Member who mooted the subject may be informed accordingly by the Deputy Commissioner, Mysore District.
